A17.18/4:

Bibliographies in the Quick Bibliography Series of the National Agricultural Library, are intended primarily for current awareness, and as the title of the series implies, are not indepth exhaustive bibliographies on any given subject. However, the citations are a substantial resource for recent investigations on a given topic. They also serve the purpose of bringing the literature of agriculture to the interested user who, in many cases, could not access it by any other means. The bibliographies are derived from computerized on-line searches of the AGRICOLA data base. Timeliness of topic and evidence of extensive interest are the selection criteria.

The author/searcher determines the purpose, length, and search strategy of the Quick Bibliography. Information regarding these is available upon request from the author/searcher.

Copies of this bibliography may be made or used for distribution without prior approval. The inclusion or omission of a particular publication or citation may not be construed as endorsement or disapproval.

To request a copy of a bibliography in this series, send the title, series number and self-addressed gummed label to:

U.S. Department of Agriculture

DOCUMENT DELIVERY SERVICES TO INDIVIDUALS

The National Agricultural Library (NAL) has a unique responsibility to attempt to supply copies of agricultural publications not found elsewhere. Filling requests for materials readily available from other sources would divert its resources and diminish its ability to serve as a national source for agricultural and agriculturally related publications. Therefore, NAL should be viewed as a library of last resort and individuals should submit requests first to local or state sources prior to sending to NAL. Possible sources are the land-grant university or other large research libraries within a state. If the needed publications are not available from these sources, the requests may be submitted to NAL with a statement indicating their non-availability.

Individuals in other countries should submit requests through major university, national or provincial institutions.

LOAN SERVICE – Materials in the collection are loaned only to other *libraries*. Requests for loans should be made through local public, academic or special libraries.

The following materials are **not** available for loan: serials (except USDA serials); rare, reference, and reserve books; microforms; and proceedings of conferences or symposiums. Photocopy or microform of non-circulating publications may be purchased as described below.

PHOTODUPLICATION SERVICE -- Use "USDA Request for Photocopying" (form LF-607) which may be requested in advance from our Library. A *separate form* should be submitted for each article or item requested. Requests should be as complete as possible with a minimum of abbreviation. The source of the citation should be given. If the citation is from an NAL database (CAIN/AGRICOLA, *Bibliography of Agriculture*, or the NAL catalog) and the call number is given, that call number should be listed in the proper block on the request form. Willingness to pay charges should be indicated on the form. Indicate compliance with copyright law or include a statement that the article is for research purposes only. Requests cannot be processed without these statements.

Rates are:

Electrostatic copy, microfilm and microfiche –

$ 5.00 for the first 10 pages or fraction copied from a single article or publication.

$ 3.00 for each additional 10 pages or fraction.

Duplication of NAL-owned microfilm – $ 10.00 per reel.

Duplication of NAL-owned microfiche– $ 5.00 for the first fiche and $ .50 for each additional fiche.

Billing – Fees include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Requesters are encouraged to establish deposit accounts with NTIS.
DO NOT SEND PREPAYMENT.

SEND REQUESTS TO – USDA, National Agricultural Library, Lending Branch, ILL, Beltsville, Maryland 20705. Questions concerning these services may be made by correspondence to Head, Lending Branch or by telephoning (301) 344-3755.

NOTE –

- Once requests have been accepted and processing has begun, requests cannot be cancelled. The appropriate charge for filling requests will be applied.

United States Department of Agriculture | National Agricultural Library | Public Services Division | Beltsville, Maryland 20705

DOCUMENT DELIVERY SERVICES AVAILABLE to Libraries and Other Information Centers and Commercial Organizations

The National Agricultural Library (NAL) accepts requests from libraries and other organizations in accordance with the national and international interlibrary loan code and guidelines. In its national role, NAL has a unique responsibility to attempt to supply copies of agricultural publications not found elsewhere. Filling requests for materials readily available from other sources would divert its resources and diminish its ability to serve as a national source for agricultural and agriculturally related publications. Therefore, NAL should be viewed as a library of last resort. Requestors should submit requests first to State/region/network sources prior to sending to NAL. Within the United States, possible sources are the land-grant university or other large research libraries within a state. Requesters in other countries should first try major university, national or provincial institutions. If the needed publications are not available from these sources, the requests may be submitted to NAL with a statement indicating their non-availability.

• Requests may be submitted on the American Library or the International Library interlibrary request form, by TWX (710-828-0506) or via the OCLC interlibrary loan subsystem. Our OCLC symbol is **AGL**, and we request that the symbol be entered twice. The complete name of the person authorizing the request is to appear on each form.

• The standard bibliographic source which lists the title as owned by NAL should be noted on each request. Requests for periodical articles should be verified. If verification is not possible, indicate the sources searched and give the sourceof the citation requested. Those requests which are verified or for which the citation source has been given receive a more thorough search. Unverified requests may be returned. If the citation is from an NAL database (CAIN/AGRICOLA, *Bibliography of Agriculture*, or the NAL catalog) and the call number is given, this call number should be included on the request.

LOAN SERVICE – Monographs published in the United States or abroad may be lent to U.S. libraries. Monographs published in the U.S. may be lent to libraries in other countries. The loan period is one month unless a shorter period is indicated on the due slip. The loan may be renewed for an additional month if there is no reserve request. The renewal request should be received prior to the due date. The borrowing library is responsible from the time of dispatch for any loss or damage incurred.

The following materials are **not** available for loan: serials (except for USDA serials), rare reference and reserve books microforms, and proceedings of conferences or symposiums. Photocopy or microform of the non-circulating publications will be supplied automatically as described below if the requesting organization indicates that this is acceptable on the loan request form.

PHOTODUPLICATION SERVICE – A separate completed interlibrary form should be submitted for each article requested. Willingness to pay charges should be indicated on the form. Indicate compliance with copyright law or include a statement that the article is for research purposes only. Requests cannot be processed without these statements.

Rates are:

Electrostatic copy, microfilm and microfiche –
$ 5.00 for the first 10 pages or fraction copied from a single article or publication.
$ 3.00 for each additional 10 pages or fraction.

Duplication of NAL-owned microfilm – $ 10.00 per reel.

Duplication of NAL-owned microfiche– $ 5.00 for the first fiche and $ .50 for each additional fiche.

Billing – Fees include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Requesters are encouraged to establish deposit accounts with NTIS.
DO NOT SEND PREPAYMENT.

SEND REQUESTS TO – USDA, National Agricultural Library, Lending Branch, ILL, Beltsville, Maryland 20705. Questions concerning these services may be made by correspondence to Head, Lending Branch or by telephoning (301) 344-3755.

NOTE –
• Once requests have been accepted and processing has begun, requests cannot be cancelled. The appropriate charge for filling requests will be applied.

USDA Regional Document Delivery

ough agreements with the major land-grant libraries in select states, USDA
loyees or libraries in those states may send their requests for document service
ectly to the land-grant university library for service. If the document cannot be
plied, it will be automatically forwarded to a larger regional land-grant library and a
ice of this action sent back to the requestor. If the regional library cannot fill the
quest, it is forwarded to the National Agricutural Library (Utilization Section)
completion. This service exists in the following states, and Form AD-245 or the CALS
intout form should be sent to these libraries. Phone numbers may be used for emergency
rvices.

AGRICOLA

File 10

Contains citations to documents published later than January 1979.

0001
Accumulation of proline in a submerged aquatic halophyte, Ruppia L. (Salt tolerance, South Australia).
Brock, M.A. Berlin, Springer International. Oecologia. 1981. v. 51 (2). p. 217-219. ill. 12 ref. (NAL Call No.: QL750.03).

0002
Adaptation to salinity in angiosperm halophytes.
Stewart, G.R. ; Ahmad, I. London : Academic Press, 1983. Metals and micronutrients : uptake and utilization by plants / edited by D.A. Robb and W.S. Pierpoint. Literature review. p. 33-50. Includes references. (NAL Call No.: QK753.M47M47).

0003
Adjustment of different halophytes to Mediterranean salt marshes of north Egypt (Halocnemum strobilaceum, Arthrocnemum glaucum, Limoniastrum monopetalum, Zygophyllum album, differences in solute regulation).
El-Shourbagy, M.N. ; Ahmed, A.M.; Osman, M.E.; Hamada, E.M. Horn : Ferdinandum Berger & Fil. Phyton : Annales rei botanicae. 1984. v. 24 (1). p. 101-112. maps. Includes references. (NAL Call No.: 450 P565).

0004
Amino acids and mineral constituents in Sesuvium portulacastrum L., a salt marsh halophyte.
Joshi, A.J. Amsterdam, Elsevier Scientific. Aquatic botany. Feb 1981. v. 10 (1). p. 69-74. ill. Bibliography p. 73-74. (NAL Call No.: QK102.A65).

0005
Anthropogenic changes in the distribution of halophytes on the coastal fringes of the Gulf of Gdansk (Poland).
Piotrowska, H. Warszawa, Poland, Panstwowe Wydawn. Naukowe. Fragmenta floristica et geobotanica. 1980. v. 26 (2/4). p. 279-297. maps. 1 p. ref. (NAL Call No.: 451 P76).

0006
Aptitude of the hypocotyles of two halophytes to rhizogenesis: Arthrocnemum perenne (Miller) Moss and Salicornia stricta Dumort. (Effect of nutrient solutions). Aptitude a la rhizogenese d'hypocotyles de deux halophytes: Arthrocnemum perenne (Miller) Moss et Salicornia stricta Dumort. French.
Langlois, J. Caen : La Societe. Bulletin de la Societe linneenne de Normandie. 1981. v. 108. p. 23-30. Includes references. (NAL Call No.: 505 C11).

0007
Biogeographical distribution of salt marsh halophytes on the coasts of the Sonoran Desert (Mexico).
Yensen, N.P. ; Glenn, E.P.; Fontes, M.R. Superior : University of Arizona. Desert plants. 1983. v. 5 (2). p. 76-81. ill., maps. Includes references. (NAL Call No.: QK938.D4D4).

0008
Biology and biogeography of halophytic species and salinity controlled ecosystems.
Sen, D.N. ; Rajpurohit, K.S. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. v. 2. p. 1-2. 8 ref. (NAL Call No.: QK1.T37).

0009
Biosaline research : a look to the future / edited by Anthony San Pietro.
; San Pietro, Anthony,; 1922. New York Plenum Press c1982. Proceedings of the Second International Workshop on Biosaline Research, held in La Paz, Mexico, Nov. 16-20, 1980. xiii, 578 p. : ill. ; 26 cm. -. Includes bibliographical references and index. (NAL Call No.: TD172.E55 v.23).

0010
Carbon isotope composition of the halophyte Disphyma clavellatum (Haw.) Chinnock (Aizoaceae), as affected by salinity.
Neales, T.F. ; Fraser, M.S.; Roksandic, Z. East Melbourne : Commonwealth Scientific and Industrial Research Organization. Australian journal of plant physiology. 1983. v. 10 (4/5). p. 437-444. Includes references. (NAL Call No.: QK710.A9).

0011
Carex praegracilis: a halophytic sedge naturalized in Ohio (Description, habitat and ecology).
Cusick, A.W. Ann Arbor, Mich. : Michigan Botanical Club. The Michigan botanist. May 1984. v. 23 (3). p. 103-106. maps. Includes references. (NAL Call No.: 450 M582).

0012
Cation-anion relationships in a nonfacultative halophyte, Galenia pubescens.
Wallace, A. Baltimore, Md., Williams & Wilkins. Soil science. July 1982. v. 134 (1). p. 51-56. 9 ref. (NAL Call No.: 56.8 S03).

0013
The cellular basis of salt tolerance studies with tissue cultures of the halophytic grass Distichlis spicata.
Daines, R.J. ; Gould, A.R. Stuttgart, W. Ger. : Gustav Fischer. Journal of plant physiology. 1985. v. 119 (3). p. 269-280. Includes references. (NAL Call No.: DNAL 450 Z32).

0014
Cellular compartmentalization of salt ions and protective agents with respect to freezing tolerance of leaves. Investigations with the halophyte Halimione portulacoides (L.) Aellen (Biochemical causes of winter hardiness, salt marshes in North-West Germany).
Maier, M. ; Kappen, L. Berlin, Springer. Oecologia. 1979. v. 38 (3). p. 303-316. ill. Bibliography p. 314-316. (NAL Call No.: QL750.03).

0015
Change of adenylate pool size in halophytes in relation with soil moisture (Zygophyllum album, Arthrocnemum indicum, Halocnemum strobilaceum, Suaeda fruitcosa, Salicornia arabica). Variation de la taille du pool des nucleotides adenyliques chez des halophytes, en relation avec l'etat hydrique du sol. French.
Abdelly, C. ; Sellami, A. Paris : Gauthier-Villars. Comptes rendus des seances de l'Academie des Sciences. Serie III. Sciences de la Vie. Sept 19, 1983. v. 297 (2). p. 91-94. Includes references. (NAL Call No.: Q2.C6).

0016
Chloride accumulation as a homeostatic system: negative feedback signals for concentration and turgor maintenance differ in a glycophyte and a halophyte (Carrots, beets).
Cram, W.J. Melbourne, Commonwealth Scientific and Industrial Research Organization. Australian journal of plant physiology. June 1980. v. 7 (3). p. 237-249. ill. 19 ref. (NAL Call No.: QK710.A9).

0017
Comparative studies on the sodium, potassium, and chloride relatins of a wild halophytic and domestic salt-sensitive tomato species.
Rush, D.W. ; Epstein, E. Rockville, Md., American Society of Plant Physiologists. Plant physiology. Dec 1981. v. 68 (6). p. 1308-1313. ill. 25 ref. (NAL Call No.: 450 P692).

0018
Comparative study of glutamate dehydrogenase and glutamine synthetase activities in the roots and aerial organs of an obligate halophyte: Sueda maritima var. macrocarpa and a glycophyte: Phaseolus vulgaris (kidney beans) grown in presence of different concentrations of NaCl (sodium chloride). Etude comparee des activites glutamate deshydrogenasique et glutamine synthetasique dans les racines et les parties aeriennes d'un halophyte obligatoire: le Suaeda maritima var. macrocarpa et d'un glycophyte: le Phaseolus vulgaris, cultives en presence de differentes concentrations en NaCl. FRENCH.
Boucaud, J. ; Billard, J.P. Paris, Gauthier-Villars. Comptes rendus hebdomadaires des seances. Serie D: Sciences naturelles.Academie des sciences, Paris. Oct 8, 1979. v. 289 (7). p. 599-602. ill. 16 ref. (NAL Call No.: 505 P21 (3)).

0019
Comparison of some membrane-bound ATPases of glycophytes and halophytes.
Tikhaya, N.I. ; Mishutina, N.E. The Hague, Martinus Nijhoff. Plant and soil. 1981. v. 63 (1). p. 25-26. 6 ref. (NAL Call No.: 450 P696).

0020
Contrasting salinity responses of two halophytes Scirpus paludosus, Salicornia virginica .
CAGRA. Ustin, S.L. Berkeley : The Station. California agriculture - California Agricultural Experiment Station. Oct 1984. v. 38 (10). p. 27-28. ill. (NAL Call No.: DNAL 100 C12CAG).

0021
Crop tolerance U.S. Salinity Laboratory in Riverside .
CAGRA. Maas, E.V. Berkeley : The Station. California agriculture - California Agricultural Experiment Station. Oct 1984. v. 38 (10). p. 20-21. ill. (NAL Call No.: DNAL 100 C12CAG).

0022
Determination of the sodium, potassium and chloride ion concentrations in the chloroplasts of the halophyte Suaeda maritima by non-aqueous cell fractionation.
Harvey, D.M.R. ; Flowers, T.J. Wien. Protoplasma. 1978. v. 97 (4). p. 337-349. il. 23 ref. (NAL Call No.: 442.8 P94).

0023
Development of the organic and mineral fraction of halophyte prairie from the Guadalquivir river marsh. III. Physiological relations. Evolucion de la fraccion organica y mineral de una pradera halofita de la marisma del Guadalquivir. III. Relaciones fisiologicas. Spanish.
Barroso, M. ; Hernandez, J.M.; Murillo, J.M.; Chaves, M. Madrid : Instituto Nacional de Edafologia y Agrobiologia. Anales de edafologia y agrobiologia. July/Aug 1982. v. 41 (7/8). p. 1397-1403. ill. Includes 10 references. (NAL Call No.: 506 SP12).

0024
Diagnosis of salinization and alkalinization levels in Spanish salt-affected soils by means of halophytic community studies.
Porta, J. ; Castroviejo, S.; Lopez-Acevedo, M. Karnal, India : Central Soil Salinity Research Institute, (1980?). International Symposium on Salt Affected Soils : 18 to 21 February 1980. p. 39-47. maps. Includes references. (NAL Call No.: S595.I5 1980).

0025
Distribution of sodium and chloride in leaves of Suaeda monoica (Halophyte).
Eshel, A. ; Waisel, Y. Copenhagen, Munksgaard. Physiologia plantarum. 1979. v. 46 (2). p. 151-154. ill. 24 ref. (NAL Call No.: 450 P564).

0026
Distributional history of Juncus compressus (Juncaceae) in North America (Halophyte, morphology, taxonomy, wetland flora).
Stuckey, R.L. Ottawa, Ottawa Field-Naturalists' Club. The Canadian field-naturalist. Apr/June 1981. v. 95 (2). p. 167-171. ill., map. Includes 2

p. ref. (NAL Call No.: 410.9 DT8).

0027
Ecological and ecophysiological problems (Plants and salt-affected soils, halophytes).
Sen, D.N. ; Rajpurohit, K.S. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. v. 2. p. 109-110. 14 ref. (NAL Call No.: QK1.T37).

0028
Ecological studies on the halophyte communities at western and southern coast in Korea. III. Soil properties, species diversity and mineral cyclings in reclaimed soil in Incheon. Korean.
Kim, J.H. ; Min, B.M. Seoul : Botanical Society of Korea. The Korean journal of botany. June 1983. v. 26 (2). p. 53-71. ill., maps. Includes references. (NAL Call No.: 450 K84).

0029
The ecology of southern California coastal salt marshes : a community profile / by Joy B. Zedler ; performed for National Coastal Ecosystems Team, Biological Services Program, Fish and Wildlife Service, U.S. Department of the Interior.
Zedler, Joy B. (Joy Buswell), 1943. Washington, D.C. The Service 1982. "March 1982.". ix, 110 p. : ill., maps ; 28 cm. -. Bibliography: p. 100-110. (NAL Call No.: QH540.U56 no.81/54).

0030
Ecology of the halophytic vegetation of Egypt.
Zahran, M.A. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. Literature review. v. 2. p. 3-20. ill., map. 48 ref. (NAL Call No.: QK1.T37).

0031
Ecomorphology of some halophytes from Lake Ghom (Hoze-Soltan) (Iran). Ecomorphologie de quelques halophytes du lac Ghom (Hoze-Soltan). FRENCH.
Ghorbanli, M. Tehran, The Faculty. Quarterly bulletin - Faculty of Science, Tehran University.Tehran, University, Faculty of Science. Spring 1978. v. 10 (1). p. 26-34. 10 plates. 8 ref. (NAL Call No.: Quarterly bulletin - Faculty of Science, Tehran University.).

0032
Ecophysiological aspects of some tropical salt marsh halophytes.
Joshi, A.J. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. Literature review. v. 2. p. 189-195. 2 p. ref. (NAL Call No.: QK1.T37).

0033
An ecophysiological study of the salt secretion of four halophytes (Spartina anglica, Limonium vulgare, Armeria maritima and Glaux maritima).
Rozema, J. ; Gude, H.; Pollak, G. London, Academic Press. The New phytologist. Oct 1981. v. 89 (2). p. 201-217. Bibliography p. 216-217. (NAL Call No.: 450 N42).

0034
Effect of NaCl on the activities of glutamate synthase from a halophyte Suaeda maritima and from a glycophyte Phaseolus vulgaris.
Billard, J.P. ; Boucaud, J. Oxford, Pergamon Press. Phytochemistry. 1980. v. 19 (9). p. 1939-1942. ill. 24 ref. (NAL Call No.: 450 P5622).

0035
The effect of nitrogen fertilization on the production of halophytes in an inland salt marsh (Ohio).
Loveland, D.G.AMNAA. ; Ungar, I.A. Notre Dame : University of Notre Dame. American midland naturalist. Apr 1983. v. 109 (2). p. 346-354. Includes references. (NAL Call No.: 410 M58).

0036
The effect of salinity and temperature on the germination of polymorphic seeds and growth of Atriplex triangularis Willd (Halophytes, polymorphic seeds and seedling growth).
Khan, M.A. ; Ungar, I.A. Baltimore, Md. : Botanical Society of America. American journal of botany. Apr 1984. v. 71 (4). p. 481-489. Includes references. (NAL Call No.: 450 AM36).

0037
Effect of salinity on growth and on mineral and organic constituents of the halophyte Disphyma australe (Soland.) J. M. Black (Succulents).
Neales, T.F. ; Sharkey, P.J. Melbourne, Commonwealth Scientific and Industrial Research Organization. Australian journal of plant physiology. 1981. v. 8 (2). p. 165-179. ill. 34 ref. (NAL Call No.: QK710.A9).

0038
Effect of salinity on the germination of Salicornia brachiata Roxb. (Halophytes).
Joshi, A.J.IPPYA. ; Iyengar, E.R.R. New Delhi : Indian Society for Plant Physiology. Indian journal of plant physiology. 1982. v. 25 (1). p. 65-70. Includes references. (NAL Call No.: 450 IN23).

0039
Effect of salinity upon cell membrane potential in the marine halophyte, Salicornia bigelovii Torr.
L'Roy, A. ; Hendrix, D.L. Bethesda, Md., American Society of Plant Physiologists. Plant physiology. Mar 1980. v. 65 (3). p. 544-549. ill. 25 ref. (NAL Call No.: 450 P692).

0040
The effect of seed dimorphism on the germination and survival of Salicornia europaea L. populations (Halophytes).
Philipupillai, J. ; Ungar, I.A. Baltimore, Md. : Botanical Society of America. American journal of botany. Apr 1984. v. 71 (4). p. 542-549. Includes references. (NAL Call No.: 450 AM36).

0041
The effect of seed reserves on species composition in zonal halophyte communities (Ohio, Saline marsh area).
Ungar, I.A. ; Riehl, T.E. Chicago, University of Chicago Press. Botanical gazette. Dec 1980. v. 141 (4). p. 447-452. ill. 24 ref. (NAL Call No.: 450 B652).

0042
Effect of sodium chloride on the carbon metabolism of Cakile maritima and Kalanchoe blossfeldiana (Halophytes and glycophytes). Effet du chlorure de sodoium sur le metabolisme carbone de Cakile maritima et Kalanchoe blossfeldiana. French.
Diallo, N. ; Queiroz-Claret, C. Paris : Gauthier-Villars. Physiologie vegetale. July/Aug 1983. v. 21 (4). p. 621-632. Includes references. (NAL Call No.: 450 P5623).

0043
Effects of sodium chloride on the cation composition of some subcellular fractions of bean roots and Cochlearia anglica (Phaseolus vulgaris, a glycophyte compared with a halophyte). Effets du NaCl sur la composition cationique de quelques fractions subcellulaires des racines de haricot et de Cochlearia anglica. French.
Bigot, J.PHYVA. ; Le Saos, J.; Binet, P. Paris : Gauthier-Villars. Physiologie vegetale. Jan/Feb 1983. v. 21 (1). p. 3-13. Includes references. (NAL Call No.: 450 P5623).

0044
Evaluation of proline accumulation in the adaptation of diverse species of marsh halophytes to the saline environment.
Cavalieri, A.J. ; Huang, A.H.C. Columbus, Ohio, Botanical Society of America. American journal of botany. Mar 1979. v. 66 (3). p. 307-312. ill. 22 ref. (NAL Call No.: 450 AM36).

0045
Factors behind decrease of nitrate reductase activity in leguminous plants under salinization.
SOPPAA. Safaraliev, P.M. ; L'vov, N.P.; Mardanov, A.A.; Kretovich, V.L. New York, N.Y. : Consultants Bureau. Soviet plant physiology. Translated from: Fiziologiia rastenii, p. 658-665. (450 F58). July/Aug 1984 (pub.1985). v. 31 (4,pt.1). p. 514-520. ill. Includes 21 references. (NAL Call No.: DNAL 450 F58AE).

0046
Field survey of halophytic plants of disturbed sites on the Canadian prairies Potential use for reclamation of saline soils .
CPLSA. Braidek, J.T. ; Fedec, P.; Jones, D. Ottawa : Agricultural Institute of Canada. Canadian journal of plant science = Revue canadienne de phytotechnie. July 1984. v. 64 (3). p. 745-751. maps. Includes references. (NAL Call No.: DNAL 450 C16).

0047
A floristic study of halophytes of the Pichavaram mangroves (Formation of vegetation, aquatic habitats, India).
Krishnamurthy, K. ; Kannan, L.; Jeyaseelan, M.J.P.; Palaniappan, R.; Ali, M.A.S. Calcutta : The Survey. Bulletin of the Botanical Survey of India. 1981 (pub. 1983). Presented at the "Symposium on Floristic Studies in Peninsular India," November 29-December 1, 1978. v. 23 (3/4). p. 114-120. ill., maps. Includes references. (NAL Call No.: 451 IN29).

0048
Freshwater impacts in normally hypersaline marshes (Vegetation responses to flooding, leaching of marsh soil salts caused replacement of halophytes by freshwater marsh species, Spartina foliosa, Salicornia virginica, Tijuana, California).
Zedler, J.B. Lawrence : Estuarine Research Federation. Estuaries. Dec 1983. v. 6 (4). p. 346-355. maps. Includes references. (NAL Call No.: GC96.E79).

0049
Genotypic differences in the mineral metabolism of plants adapted to extreme habitats (Halophytes, metallophytes, serpentine plants, calcicoles, and calcifuges).
Popp, M.PLSOA. The Hague : Martinus Nijhoff. Plant and soil. 1983. Literature review. v. 72 (2/3). p. 261-273. Includes references. (NAL Call No.: 450 P696).

0050
Geographic analysis of the halophytic floristic complex in the steppe part of the Kazakh small-knob land. Russian.
Nikol'skaia, N.I. Leningrad : Izdatel'stvo "Nauka" Leningradskoe otdelenie. Botanicheskii zhurnal. Jan 1984. Literature review. v. 69 (1). p. 14-23. Includes references. (NAL Call No.: 451 R923).

0051
Germination ecology of halophytes.
Ungar, I.A. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. Literature review. v. 2. p. 143-154. 3 p. ref. (NAL Call No.: QK1.T37).

0052
Germination of two halophytes: Halopeplis perfoliata and Limonium aillare from Saudi Arabia.
Mahmoud, A. ; El Sheikh, A.M.; Abdul Baset, S. London : Academic Press. Journal of arid environments. June 1983. v. 6 (2). p. 87-98. maps. Includes references. (NAL Call No.: QH541.5.D4J6).

0053
Glycinebetaine content of halophytes: improved analysis by liquid chromatography and interpretations of results (Salicornia europaea ssp. rubra).
Guy, R.D. ; Warne, P.G.; Reid, D.M.

Copenhagen : Scandinavian Society for Plant Physiology. Physiologia plantarum. June 1984. v. 61 (2). p. 195-202. ill. Includes references. (NAL Call No.: 450 P564).

0054
Glycolate oxidase in Halophytes (Ceiops tagal, Lumnitzera racemosa, Aeturopus lagopoides).
Waghmode, A.P. ; Joshi, G.V. New Delhi, Council of Scientific And Industrial Research. Indian journal of experimental biology. Jan 1979. v. 17 (1). p. 111-112. ill. 21 ref. (NAL Call No.: 442.8 IN2).

0055
Growth and root anatomy of two subspecies of Festuca rubra L. in response to NaCl (sodium chloride) salinization of the culture solution (Glycophyte Festuca rubra ssp. fallax and halophyte Festuca rubra ssp. litoralis). Einfluss der NaCl-Konzentration in der Nahrlosung auf das Wachstum und die Wurzelanatomie bei zwei Unterarten von Festuca rubra L. German.
Baumeister, W. ; Merten, A. Gottingen, Vereinigung fur Angewandte Botanik. Angewandte Botanik. Dec 1981. v. 55 (5/6). p. 401-408. ill. Includes ref. (NAL Call No.: 450 AN4).

0056
Growth and survival of the halophyte Salicornia europaea L. under saline field conditions.
McGraw, D.C. ; Ungar, I.A. Columbus, Ohio Academy of Science. The Ohio journal of science. May 1981. v. 81 (3). p. 109-113. ill. 18 ref. (NAL Call No.: 410 OH3).

0057
Growth response to salinity at high levels of carbon dioxide (Carbon-3 metabolic pathway plants, Phaseolus vulgaris, kidney beans, and Xanthium strumarium, carbon-4 pathway salt-sensitive Zea mays, maize, and the carbon-4 pathway halophyte Atriplex halimus).
Schwarz, M. ; Gale, J. Oxford : Clarendon Press. Journal of experimental botany. Feb 1984. v. 35 (151). p. 193-196. Includes references. (NAL Call No.: 450 J8224).

0058
Growth, water potential and ion accumulation in the inland halophyte Atriplex triangularis under saline field conditions (Effect of soil salinity stress).
Reihl, T.E.AOSPDY. ; Ungar, I.A. Paris : Gauthier-Villars. Acta oecologica. 1983. v. 4 (1). p. 27-39. 24 ref. (NAL Call No.: QK901.A1032).

0059
Halophily and salt resistance in Halopeplis amplexicaulis (Vahl) Ung. Halophilie et resistance au sel chez Halopeplis amplexicaulis (Vahl) Ung. French.
AOSPDY. Tremblin, G. ; Binet, P. Paris : Gauthier-Villars. Acta oecologica : oecologia plantarum. 1984. v. 5 (3). p. 291-293. Includes 8 references. (NAL Call No.: DNAL QK901.A1032).

0060
Halophyte seed germination.
Ungar, I.A. Bronx, New York Botanical Garden. Botanical review. Apr/June 1978. v. 44 (2). p. 233-264. ill. Bibliography p. 258-264. (NAL Call No.: 450 B6527).

0061
Halophytes along a Michigan roadside with comments on the occurrence of halophytes in Michigan.
Reznicek, A.A. Ann Arbor, Michigan Botanical Club. The Michigan botanist. Jan 1980. v. 19 (1). p. 23-30. ill., maps. 18 ref. (NAL Call No.: 450 M582).

0062
Halophytes and human welfare.
Zahran, M.A. ; Abdel Wahid, A.A. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. Literature review. v. 2. p. 235-257. ill., maps. 2 p. ref. (NAL Call No.: QK1.T37).

0063
Halophytes as a rangeland resource.
CAGRA. Kelley, D.B. Berkeley : The Station. California agriculture - California Agricultural Experiment Station. Oct 1984. v. 38 (10). p. 26. ill. (NAL Call No.: DNAL 100 C12CAG).

0064
Halophytes in the XXIst century (Distichlis spicata, forage plant, tolerance of saline soils, Mexico). Las halofitas en el siglo XXI. Spanish.
Mota Urbina, J.C. Mexico : The Instituto. Publicacion especial - Instituto Nacional de Investigaciones Forestales. Nov 1981. Paper presented at the "First National Conference on Ecology, Management and Domestication of Useful Desert Plants," January 27-31, 1980, Monterrey, Mexico. Nov 1981. (31). p. 495-502. (NAL Call No.: 99.9 M577P).

0065
Halophytes: new sources of nutrition (Introduction of new species of food plants).
Felger, R.S. ; Mota-Urbina, J.C. New York, Plenum Press. Environmental science research. 1982. v. 23. p. 473-477. Includes 10 ref. (NAL Call No.: TD172.E55).

0066
Halophytic plants in southern Ontario (Taxonomy and ecology).
Catling, P.M. ; McKay, S.M. Ottawa, Ottawa Field-Naturalists' Club. The Canadian field-naturalist. July/Sept 1980. v. 94 (3). p. 248-258. ill. Bibliography p. 257-258. (NAL Call No.: 410.9 OT8).

0067
The influence of NaCl (sodium chloride) on the proline metabolism in halophytes (Mesembryanthemum nodiflorum). Der Einfluss von NaCl auf den Prolinstoffwechsel bei Halophyten.

GERMAN.
Treichel, S. Stuttgart, Gustav Fischer. Berichte.Deutsche Botanische Gesellschaft. 1979. v. 92 (1). p. 73-85. ill. 27 ref. (NAL Call No.: 451 D48).

0068
Karyomorphological studies on halophytic plants. I. Some taxa of Chenopodium (in Japan).
Tanaka, R. ; Tanaka, A. June 1980. . 45 (1/2). Cytologia. June 1980. June 1980. . 45 (1/2). p. 257-269. ill. 19 ref. (NAL Call No.: 442.8 C99).

0069
Knowledge of halophytic associations of the Peruvian coastal region. Beitrage zur Kenntnis der Halophytengesellschaften der peruanischen Kustenregion. German.
Muller, G.K. ; Gutte, P. Leipzig, E. Ger. : Karl-Marx-Universitat. Wissenschaftliche Zeitschrift - Karl-Marx-Universitat. Mathematisch-Naturwissenschaftliche Reihe. 1983. v. 32 (5). p. 502-514. ill. Includes references. (NAL Call No.: 509 L532).

0070
Lipid contents of halophytic plants and salt-resistance. Teneur en lipides de halophytes et resistance au sel. French.
Zarrouk, M. ; Cherif, A. Stuttgart, W. Ger. : Gustav Fischer. Zeitschrift fur Pflanzenphysiologie = International journal of plant physiology. 1983. v. 112 (4). p. 373-380. Includes references. (NAL Call No.: 450 Z32).

0071
Localization of chlorine in glycophytes and halophytes under conditions of salinization (Salicornia europea, Kochia americana, kidney beans, sunflowers).
Lapina, L.P. ; Sogolova, T.V.; Strogonov, B.P. New York, Consultants Bureau. Soviet plant physiology. Mar/Apr 1980. v. 27 (2,pt.1). p. 212-220. ill. 17 ref. (NAL Call No.: 450 F58AE).

0072
Long-distance dispersal of vascular halophytes: the marshes of Saltville, Virginia.
Ogle, D.W. Morgantown, W. Va., Southern Appalachian Botanical Club. Castanea. Mar 1981. v. 46 (1). p. 8-15. ill. 15 ref. (NAL Call No.: 450 S082).

0073
Mechanisms of salt tolerance in plants.
CAGRA. Lauchi, A. ; Epstein, E. Berkeley : The Station. California agriculture - California Agricultural Experiment Station. Oct 1984. v. 38 (10). p. 18-20. ill. (NAL Call No.: DNAL 100 C12CAG).

0074
(Na+ + K+) (sodium and potassium ions)-ATPase activity in membranes isolated from shoots of the halophyte Halocnemum strobilaceum.
Mishustina, N.E. ; Tikhaya, N.I.; Chaplygina, N.S. New York, Consultants Bureau. Soviet plant physiology. May/June 1979. v. 26 (3,pt.1). p. 432-437. ill. 27 ref.

0075
Najas marina in Israel: Is it a halophyte or a glycophyte? (Brackish water, fresh water, salinity, habitats and physiology).
Agami, M. ; Eshel, A.; Waisel, Y. Copenhagen : Scandinavian Society for Plant Physiology. Physiologia plantarum. Aug 1984. v. 61 (4). p. 634-636. ill. Includes references. (NAL Call No.: 450 P564).

0076
Natural halophytes as a potential resource for new salt-tolerant crops (for food and forage): some progress and prospects.
Somers, G.F. New York, Plenum Press. Environmental science research. 1979. v. 14. p. 101-115. ill. Bibliography p. 111-115. (NAL Call No.: TD172.E55).

0077
A new halophyte for Missouri (Heliotropium curassavicum).
Nelson, P.W. Morgantown, W. Va., Southern Appalachian Botanical Club. Castanea. Dec 1979. v. 44 (4). p. 246-247. ill. (NAL Call No.: 450 S082).

0078
A new method of salt pan formation in intertidal marshes (Effect on halophytic vegetation in Scotland).
Smith, J.S. Edinburgh, The Society. Transactions - Botanical Society of Edinburgh. 1979. v. 43 (pt.2). p. 127-130. ill. 3 ref. (NAL Call No.: 451 ED4T).

0079
Nitrification and seasonal changes in bacterial populations in the rhizosphere of Suaeda and Arthrocnemum species growing in saline soils.
PLSOA2. Mahasneh, A. ; Budour, S.; Doddema, H. The Hague : Martinus Nijhoff. Plant and soil. 1984. v. 82 (1). p. 149-154. Includes 14 references. (NAL Call No.: DNAL 450 P696).

0080
Nitrogen metabolism in halophytes. V. The occurrence of multiple forms of glutamine synthetase in leaf tissue (Coastal plant species).
McNally, S.F.NEPHA. ; Hirel, B.; Stewart, G.R. London : Academic Press. The New phytologist. May 1983. v. 94 (1). p. 47-56. Includes references. (NAL Call No.: 450 N42).

0081
Nitrogen metabolism of halophytes. IV. Characteristics of glutamine synthetase from Triglochin maritima L.
Ahmad, I. ; Larher, F.; Mann, A.F.; McNally, S.F.; Stewart, G.R. London, Eng., Academic Press. The New phytologist. Aug 1982. v. 91 (4). p. 585-595. Ref. (NAL Call No.: 450 N42).

0082
A note on the Halophytes in India.
Bakshi, D.N.G. ; Sen, S. Calcutta. BulletinBotanical Society of Bengal. 1976 (pub. 1978). v. 30 (1/2). p. 117-119. (NAL Call No.: 451 B659).

0083
Nutritional value of halophytes grown on hypersaline seawater.
Glenn, E.P. ; Fontes, M.R.; Katzen, S.; Colvin, L.B. New York, Plenum Press. Environmental science research. 1982. v. 23. p. 485-489. Includes 3 ref. (NAL Call No.: TD172.E55).

0084
On the phyto-sociology, synoecology, and water balance of halophytes. Sur la phytosociologie, la synecologie et le bilan d'eau de halophytes : de la region neerlandaise meridionale ainsi que de la mediterranee francaise / door Marcus Jan Adriani. French.
Adriani, Marcus Jan. Amsterdam A. Asher 1974. Originally presented as the author's Thesis (doctoral--Amsterdam, 1945) under the same title. Summaries in Dutch and English -Reprint of the 1945 ed. published by J. B. Wolter, Groningen. xxi, 217 p. : ill. maps ; 25 cm. -. Bibliography: p. (208)-214. (NAL Call No.: QK922.A3).

0085
Osmoregulation in halophytic higher plants: a comparative study of soluble carbohydrates, polyols, betaines and free proline.
Briens, M. ; Larher, F. Oxford, Blackwell Scientific Publications. Plant, cell and environment. Aug 1982. v. 5 (4). p. 287-292. 1 p. ref. (NAL Call No.: QK710.P55).

0086
Osmoregulation in halophytic higher plants: the protective effect of glycine betaine against the heat destabilization of membranes (Beta vulgaris, red beets).
Jolivet, Y.PTSLA. ; Larher, F.; Hamelin, J. Limerick : Elsevier. Plant science letters. May 1982. v. 25 (2). p. 193-201. Includes references. (NAL Call No.: QK1.P5).

0087
Osmoregulation in higher plant halophytes: organic nitrogen accumulation in glycine betaine and proline during the growth of Aster tripolium and Suaeda macrocarpa under saline conditions.
Larher, F.PTSLA. ; Jolivet, Y.; Briens, M.; Goas, M. Limerick : Elsevier. Plant science letters. Feb 1982. v. 24 (2). p. 201-210. Includes references. (NAL Call No.: QK1.P5).

0088
Osmotic adjustment and the response of halophytic plants to salinity (Tolerance).
Jefferies, R.L. Arlington, Va., The Institute. BioScience - American Institute of Biological Sciences. Jan 1981. v. 31 (1). p. 42-46. 33 ref. (NAL Call No.: 500 AM322A).

0089
Pathway of carbon metabolism in halophytic desert species from Chenopodiaceae.
Zalenskii, O.V. ; Glagoleva, T. Praha, Academia. Photosynthetica. 1981. v. 15 (2). p. 244-255. Bibliography p. 253-255. (NAL Call No.: QK882.A1P4).

0090
Pathway of carbon metabolism in halophytic desert species from Chenopodiaceae.
Zalenskii, O.V.PHSYB. ; Glagoleva, T. Praha : Czechoslovak Academy of Sciences. Photosynthetica. 1981. v. 15 (2). p. 244-255. Includes references. (NAL Call No.: QK882.A1P4).

0091
Photosynthetic pathways and ecological distribution of halophytes from some inland salt lakes of Turkey, Jordan and Iran. Photosyntheseweg und Zonierung von Halophyten an Salzseen in der Turkei, in Jordanien und im Iran. German.
Frey, W. ; Kurschner, H. Jena, E. Ger. : Gustav Fischer. Flora : Morphologie, Geobotanik, Oekophysiologie. 1983. v. 173 (3/4). p. 293-310. ill., maps. Includes references. (NAL Call No.: QK641.A1F5).

0092
Photosynthetic products and enzymes in a mangrove, Aegiceras corniculatum (L.) Blanco and halophyte, Sesuvium portulacastrum L.
Bhosale, L.J.PHSYB. ; Shinde, L.S. Praha : Czechoslovak Academy of Sciences. Photosynthetica. 1983. v. 17 (1). p. 59-63. Includes references. (NAL Call No.: QK882.A1P4).

0093
Physiological investigations in leaves of different ages of some halophytes and nonhalophytes. Stoffwechselphysiologische Untersuchungen an verschieden alten Blattern einiger Halophyten und Glykophyten.
Ladenburger, K. ; Albert, R. Stuttgart, Gustav Fischer. Zeitschrift fur Pflanzenphysiologie. = International journal of plant physiology. 1981. v. 102 (4). p. 303-314. ill. 33 ref. (NAL Call No.: 450 Z32).

0094
The physiology of salt tolerance of the salt marsh halophyte, Salicornia bigelovii / by Walter Guy Rivers.
Rivers, Walter Guy, 1934. 1969. Thesis (Ph.D.)--University of Houston, 1969. Photocopy. Ann Arbor, Mich. : University Microfilms, 1971. iii, 203 leaves ; 21 cm. Bibliography: leaves 184-197. (NAL Call No.: DISS 70-15,300).

0095
The plant and salt. Rastenie i sol' : rasskaz o galofitakh / E.N. Chernenko ; (otvetstvenny, redaktor P.A. Saliukov). Russian.
Chernenko, E. N. (Ernst Nikolaevich). ; Saliukov, P. A. Alma-Ata Nauka 1983. At head of title: Akademiia nauk Kazakhskoi

SSR. 135 p. : ill. ; 17 cm. -. Includes bibliographical references. (NAL Call No.: QK922.C5).

0096
Plant-controlled supratidal anhydrite from Al-Khiran, Kuwait (in association with the living halophyte Halocnemum strobilaceum).
Gunatilaka, A. ; Saleh, A.; Al-Temeemi, A. London, Macmillan Journals. Nature. Nov 20, 1980. v. 288 (5788). p. 257-260. ill., maps. 11 ref. (NAL Call No.: 472 N21).

0097
Potentialities and uses of halophytic species and ecosystems.
Sen, D.N. ; Rajpurohit, K.S. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. v. 2. p. 233. 4 ref. (NAL Call No.: QK1.T37).

0098
Precipitation procedures for sodium, potassium and chloride localization in leaf cells of the halophyte Suaeda maritima.
Harvey, D.M.R. ; Flowers, T.J. Oxford, Blackwell Scientific Publications. Journal of microscopy. July 1979. v. 116 (pt.2). p. 213-226. ill. 24 ref. (NAL Call No.: 440.9 R81J).

0099
A procedure for isolating vacuoles from leaves of the halophyte Suaeda maritima.
Dracup, M.N.H. ; Greenway, H. Oxford : Blackwell Scientific Publications. Plant, cell and environment. Mar 1985. v. 8 (2). p. 149-154. ill. Includes references. (NAL Call No.: DNAL QK710.P55).

0100
Productivity of halophytes irrigated with hypersaline seawater in the Sonoran desert (Mexico).
Glenn, E.P. ; Fontes, M.R.; Yensen, N.P. New York, Plenum Press. Environmental science research. 1982. v. 23. p. 491-494. Includes 13 ref. (NAL Call No.: TD172.E55).

0101
Proline and glycinebetaine accumulation by Spartina alterniflora Loisel. in response to NaCl (sodium chloride) and nitrogen in a controlled environment (Halophyte).
Cavalieri, A.J.OECOB. Berlin, W. Ger. : Springer International. Oecologia. 1983. v. 57 (1/2). p. 20-24. Includes references. (NAL Call No.: QL750.03).

0102
Proton efflux from roots of intact Spergularia marina plants (Hydrogen ions, salt marsh halophytes).
Cheeseman, J.M. ; Enkoji, C. Oxford : Clarendon Press. Journal of experimental botany. July 1984. v. 35 (156). p. 1048-1052. ill. Includes references. (NAL Call No.: 450 J8224).

0103
Proton pumping from the roots of the salt marsh halophyte Spergularia marina.
Cheeseman, J.M. ; Enkoji, C. Chichester West Sussex : Wiley, c1984. Membrane transport in plants : proceedings of the symposium held in Prague, Czechoslovakia, August 15-21, 1983 / editors, W.J. Cram ... et al. . p. 544-545. ill. (NAL Call No.: DNAL QK871.M46).

0104
Puccinellia distans (Jacq.) Parl. (Poaceae): a halophytic grass rapidly spreading in Ohio.
Cusick, A.W.SCBTA. Dallas : Wm. F. Mahler. Sida: contributions to botany. Dec 1982. v. 9 (4). p. 360-363. maps. Includes references. (NAL Call No.: 450 SI1).

0105
Quantitation and purification of quaternary ammonium compounds from halophyte tissue (Atriplex nummularia, Spergularia marina, Salicornia europaea).
Stumpf, D.K. Rockville, Md. : American Society of Plant Physiologists. Plant physiology. May 1984. v. 75 (1). p. 273-274. ill. Includes 15 references. (NAL Call No.: 450 P692).

0106
Regulation of transport and exclusion of salt in glycophytes and halophytes. Regulation des Salztransportes und Salzausschliessung in Glykophyten und Halophyten. GERMAN.
Lauchli, A. Stuttgart, Gustav Fischer. Berichte.Deutsche Botanische Gesellschaft. 1979. v. 92 (1). p. 87-94. ill. 31 ref. (NAL Call No.: 451 D48).

0107
Relationship between salt accumulation and water content of dicotyledonous halophytes.
Glenn, E.P. ; O'Leary, J.W. Oxford : Blackwell Scientific Publications. Plant, cell and environment. June 1984. v. 7 (4). p. 253-261. Includes references. (NAL Call No.: QK710.P55).

0108
Reproductive allocation in annual and perennial species of the submerged aquatic halophyte Ruppia (megacarpa, Ruppia tuberosa and Ruppia polycarpa).
Brock, M.A.JECOA. Oxford : Blackwell Scientific. Journal of ecology. Nov 1983. v. 71 (3). p. 811-818. Includes references. (NAL Call No.: 450 J829).

0109
Requirement of sodium chloride for the action of gibberellic acid in stimulating hypocotyl elongation of a halophyte, Salicornia herbacea L.
Kawasaki, H. ; Takada, H. Kyoto, Japanese Society of Plant Physiologists. Plant and cell physiology. Dec 1978. v. 19 (8). p. 1415-1425. ill. 19 ref. (NAL Call No.: 450 P699).

0110
Responses of halophytes to high salinities and low water potentials (Plantago maritima, Triglochin maritima, Limonium vulgare, Halimione portulacoides).
Jefferies, R.L. ; Rudmik, T. Bethesda, Md., American Society of Plant Physiologists. Plant physiology. Dec 1979. v. 64 (6). p. 989-994. ill. 27 ref. (NAL Call No.: 450 P692).

0111
The responses of halophytes to salinity: an ecological perspective.
Jefferies, R.L. ; Rudmik, T. New York : Wiley, c1984. Salinity tolerance in plants : strategies for crop improvement / edited by Richard C. Staples, Gary H. Toenniessen. Literature review. p. 213-227. Includes 53 references. (NAL Call No.: DNAL QK753.S3S24).

0112
A review of the occurrence of halophytes in the eastern Great Lakes region.
Catling, P.M. ; McKay, S.M. Ann Arbor, Michigan Botanical Club. The Michigan botanist. Oct 1981. v. 20 (4). p. 167-179. ill. Includes 3 p. ref. (NAL Call No.: 450 M582).

0113
The role of halophytes in irrigated agriculture.
O'Leary, J.W. New York : Wiley, c1984. Salinity tolerance in plants : strategies for crop improvement / edited by Richard C. Staples, Gary H. Toenniessen. Literature review. p. 285-300. Includes 48 references. (NAL Call No.: DNAL QK753.S3S24).

0114
Rubidium transport in membrane vesicles from the halophyte Suaeda maritima.
Field, C.D. ; Flowers, T.J.; Hall, J.L. London, Academic Press. Annals of botany. Oct 1980. v. 46 (4). p. 401-407. ill. 12 ref. (NAL Call No.: 450 AN7).

0115
Ruppia maritima, new for the flora of Ohio (Aquatic halophyte).
Ungar, I.A. ; Loveland, D.G. Columbus, Ohio Academy of Science. The Ohio journal of science. Mar 1982. v. 82 (1). p. 68. Includes 7 ref. (NAL Call No.: 410 OH3).

0116
Safford area is site of halophyte research (Salt-tolerant crop trials, Arizona).
Lucas, K. Phoenix, Ariz. : Elliott L. Cushman. Arizona farmer rancher. Apr 1984. v. 63 (4). p. 18-19. ill. (NAL Call No.: 6 AR44).

0117
Saline water used to produce biomass (Halophytes).
Dean, P. Washington, D.C., The Administration. Agricultural research - U.S. Department of Agriculture, Science and Education Administration. June 1982. v. 30 (12). p. 7. (NAL Call No.: 1.98 AG84).

0118
Salinity and root conductivity: differential responses of a coastal succulent halophyte, Salicornia virginica, and a weedy glycophyte, Raphanus sativus (Radishes, osmotic adjustment).
Ownbey, R.S.PHPLA. ; Mahall, B.E. Copenhagen : Scandinavian Society for Plant Physiology. Physiologia plantarum. Feb 1983. v. 57 (2). p. 189-195. Includes references. (NAL Call No.: 450 P564).

0119
Salt tolerance expressed as a cellular trait in suspension cultures developed from the halophytic grass Distichlis spicata.
Warren, R.S. ; Gould, A.R. Stuttgart, W. Ger., Gustav Fischer. Zeitschrift fur Pflanzenphysiologie = International journal of plant physiology. 1982. v. 107 (4). p. 347-356. 22 ref. (NAL Call No.: 450 Z32).

0120
Salt tolerance in the halophyte Suaeda maritima (L.) Dum. The influence of the salinity of the culture solution on leaf starch and phosphate content.
Hajibagheri, M.A. ; Flowers, T.J. Oxford : Blackwell Scientific Publications. Plant, cell and environment. June 1985. v. 8 (4). p. 261-267. ill. Includes references. (NAL Call No.: DNAL QK710.P55).

0121
Salt tolerance in the halophyte Suaeda maritima L. Dum.: Evaluation of the effect of salinity upon growth.
Yeo, A.R. ; Flowers, T.J. Oxford, Clarendon Press. Journal of experimental botany. Aug 1980. v. 31 (123). p. 1171-1183. ill. 40 ref. (NAL Call No.: 450 J8224).

0122
Salt tolerance in the halophyte Suaeda maritima L. Dum.: intracellular compartmentation of ions.
Yeo, A.R. Oxford, Clarendon Press. Journal of experimental botany. June 1981. v. 32 (128). p. 487-497. ill. 33 ref. (NAL Call No.: 450 J8224).

0123
Salt tolerance of in vitro activity of leucine aminopeptidase, peroxidase, and malate dehydrogenase in the halophytes Spartina alterniflora and Spartina patens (collected from marshes near Georgetown, South Carolina).
Gettys, K.L. ; Hancock, J.F.; Cavalieri, A.J. Chicago, University of Chicago Press. Botanical gazette. Dec 1980. v. 141 (4). p. 453-457. ill. 30 ref. (NAL Call No.: 450 B652).

0124
Salt tolerance of plants on molecular level.
Gabr, A.E.I. Davis : University of California, Davis?, 1981? . A Conference on biosalinity : the problem of salinity in agriculture : a joint conference of Egyptian, Israeli and American

scientists, Univ. of California, Davis, September 1-4, 1981 / organized and. p. 70-71. (NAL Call No.: DNAL S619.S24C6).

O125
Seasonal and age-induced changes in amino acids and nitrogen storage of halophytes. Jahreszeitlich und altersbedingte Variationen im Stickstoffhaushalt von Halophyten.
Popp, M. ; Albert, R. Stuttgart, Gustav Fischer. Berichte der Deutschen Botanischen Gesellschaft. July 1981. v. 94 (1/2). p. 171-180. ill. Bibliography p. 179-180. (NAL Call No.: 451 D48).

O126
Seed dimorphism in Salicornia europaea L. (Salt-tolerant halophyte).
Ungar, I.A. Chicago. Botanical gazette. Mar 1979. v. 140 (1). p. 102-108. ill. 33 ref. (NAL Call No.: 450 B652).

O127
Sorbitol, a compatible osmotic solute in Plantago maritima (Halophytes, salt tolerance).
Ahmad, I. ; Larher, F. London, Academic Press. New phytologist. May 1979. v. 82 (3). p. 671-678. ill. 23 ref. (NAL Call No.: 450 N42).

O128
Stereological analysis of leaf cells of the halophyte Suaeda maritima (L.) Dum.
JEBOA6. Hajibagheri, M.A. ; Hall, J.L.; Flowers, T.J. Oxford : Clarendon Press. Journal of experimental botany. Oct 1984. v. 35 (159). p. 1547-1557. ill. Includes 26 references. (NAL Call No.: DNAL 450 J8224).

O129
Structural and ecophysiological pattern in the xero-halophytic C4 grass, Sporobolus rigens (Tr.) Desv.
Bocher, Tyge Wittrock, 1909. KObenhavn Kommissionaer Munksgaard 1978. 48 p., 11 leaves of plates : ill. -. Bibliography: p. 46-48. (NAL Call No.: 442.9 D23B v.22, No.3).

O130
The structure of the cuticle in relation to cuticular transpiration in leaves of the halophyte Suaeda maritima (L.) Dum.
Hajibagheri, M.A.NEPHA. ; Hall, J.L.; Flowers, T.J. London : Academic Press. The New phytologist. May 1983. v. 94 (1). p. 125-131. ill. Includes references. (NAL Call No.: 450 N42).

O131
Studies on some halophytes of Peshawar District.
PJBOB6. Sarir, M.S. ; Marwat, K.B.; Khattak, J.K. Karachi : Pakistan Botanical Society. Pakistan journal of botany. June 1984. v. 16 (1). p. 49-51. Includes references. (NAL Call No.: DNAL QK1.P3).

O132
Studies on the salt meadows of the dried Lantza lake (northern Greece) (Halophytic vegetation). Untersuchungen uber die Salzwiesen des ausgetrockneten Lantza-Salzsees (Nordgriechenland). GERMAN.
Babalonas, D. ; Karagiannakidou, V.; Kokkini, S. Berlin, Akademie. Feddes Repertorium. 1980. v. 91 (1/2). p. 117-126. ill., map. 15 ref. (NAL Call No.: 450 R29).

O133
Survey and adaptive biology of halophytes in western Rajasthan, India.
Sen, D.N. ; Rajpurohit, K.S.; Wissing, F.W. The Hague : W. Junk Publishers. Tasks for vegetation science. 1982. Literature review. v. 2. p. 61-78. map. 3 p. ref. (NAL Call No.: QK1.T37).

O134
Temperature and salinity regulation of growth and gas exchange of Salicronia fruticosa (L.) L. (Halophyte, Mediterranean sea coast in Libya).
Abdulrahman, F.S. ; Williams, G.J. III. Berlin, Springer International. Oecologia. 1981. v. 48 (3). p. 346-352. ill. 29 ref. (NAL Call No.: QL750.O3).

O135
Tolerance of halophytes against freezing and salt stress and its possible biochemical causes. Widerstandsfahigkeit von Halophyten gegenuber Gefrieren und Salzstress und ihre moglichen biochemischen Urasachen. GERMAN.
Kappen, L. Stuttgart, Gustav Fischer. Berichte.Deutsche Botanische Gesellschaft. 1979. v. 92 (1). p. 55-71. ill. 23 ref. (NAL Call No.: 451 D48).

O136
Trace metal content of live tissues in Halimione portulacoides from coastal areas of the Sado estuary, Portugal.
IJEVAW. Reboredo, F.H.S. London : Gordon and Breach Science Publishers. International journal of environmental studies. July 1984. v. 23 (1). p. 49-53. maps. Includes 16 references. (NAL Call No.: DNAL QH540.I55).

O137
Utilization of Atriplex barclyana and Lentiformis by growing chicks and rabbits (Halophyte species).
Schurg, W.A.PMWSA. ; Maiorino, P.M.; Reid, B.L. (s.l.) : The Society. Proceedings of the annual meeting - American Society of Animal Science. Western Section. 1982. v. 33. p. 348-351. Includes references. (NAL Call No.: 389.9 AM31).
